A.N.I. TTNS.'s National Skill Standard Training and Testing Center

About A.N.I. TTNS.

A.N.I. LOGISTICS, LTD. has provided logistical services and experienced in forklift operation over 26 years. All forklift drivers are well trained to develop their skills, knowledge and safety awareness. Therefore, we have established the A.N.I. TTNS.'s National Skill Standard Training and Testing Center for Electric Forklift Truck Operating, which certified by the Department of Skill Development, Ministry of Labour. The aim of this center is to build a qualified forklift driver, along with high safety awareness.

Objectives

1. To train forklift drivers to have knowledge, skills and safety awareness when operating forklift.
2. To follow the Ministerial Regulation on the Prescribing of Standard for Administration and Management of Occupational Safety, Health and Environment in Relation to Machine, Crane and Radiator B.E.2552 (A.D.2009), which issued by Ministry of Labor.

Benefits

1. To learn and understand more about forklift performance, how to keep maintenance, control and move goods properly.
2. To increase maintenance skills in order to extend lifetime and reduce repair cost of forklift.
3. To increase skills in operating forklift correctly and safely in order to reduce an accident.
4. To raise safety awareness.
5. To increase work efficiency and to reduce company losses.

OUR SERVICES

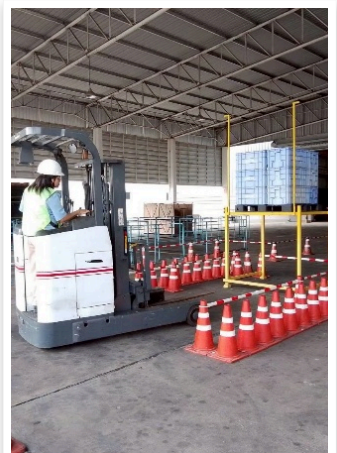

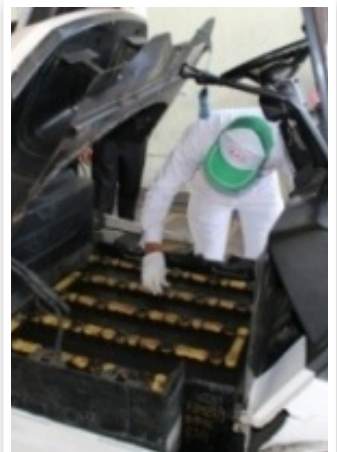

1. Training service

Forklift Driving Training Course

BASIC – STANDARD PROGRAM

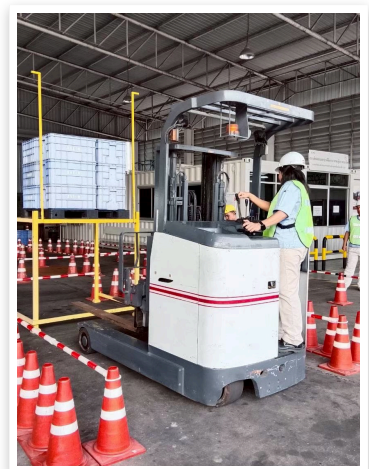

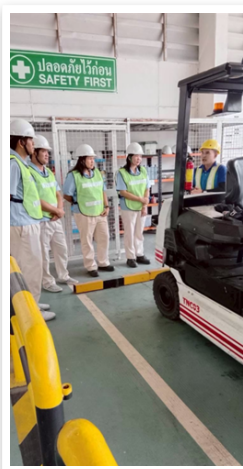

- **TNB-01 : 6 hour course : BASIC FORKLIFT DRIVING & MAINTENANCE.** This course is for a person who already has a basic skill of forklift driving, but lacks of knowledge, skills and how to do maintenance properly, or hasn't got a certificate of training as Ministerial Regulation prescribed yet, or wants to review annually.
- **TNB-02 : 12-hour course : OPERATORS OF FORKLIFTS WITH A CAPACITY OF UP TO 10 TONS.** This course is designed for individuals who already possess basic forklift operating skills but wish to enhance their operational proficiency, learn new techniques, and ensure compliance with regulations for moving goods. It is also suitable for those who do not yet hold a training certificate as required by ministerial regulations, or for individuals seeking an annual refresher course.
- **TNS-01 : 18 hour course : PROPER AND SAFE TECHNIQUES OF FORKLIFT DRIVING & MAINTENANCE.** This course is for a person who already has a basic skill of forklift driving, but wants to increase operating skills, learn new techniques, know how to do maintenance properly, raise awareness of safety driving, study accident cases related to forklift, enhance the risk analysis skills, or for a person who hasn't got a certificate of training as Ministerial Regulation prescribed yet, or wants to review annually.

PROFESSIONAL PROGRAM

- **TNA-01 : 30 hour course : PROPER & SAFE TECHNIQUES OF FORKLIFT DRIVING WHEN MOVING GOODS.** This course is for a person who already has a basic skill of forklift driving, but wants to increase operating skills and to have advance techniques when moving goods in different environments. Also, it's for a person who wants to know how to do maintenance properly, raise awareness of safety driving, study accident cases related to forklift, enhance the risk analysis skills, or for a person who hasn't got a certificate of training as Ministerial Regulation prescribed yet, or wants to review annually.
- **TNP-01 : 36 hour course : PREP COURSE TO BE A FORKLIFT DRIVER.** This course is for a person who has no experience in forklift driving or wants to change a career to be a skillful forklift operator, to know how to do maintenance properly and safely, and to build awareness of safety driving.

DEVELOPMENT PROGRAM

- **TNSP-01 : 6 hour course : TECHNIQUES FOR LIFTING & MOVING GOODS IN DANGEROUS ENVIRONMENT.** This is an intensive program for a person who always operate a forklift and wants to improve a particular driving skill. You will be taught for 6 hours focusing on practical skills.
- **TNSP-02 : 6 hour course : TECHNIQUES FOR PREVENTIVE MAINTENANCE.** This is an intensive program for a person who always operate a forklift and wants to improve maintenance skills in full system. You will be taught for 6 hours focusing on practical skills.

*** Certificate of Competency to operate an electric forklift truck will be issued to all learners who successfully complete and pass each of courses. ***

2. TEST SERVICE

NATIONAL SKILL STANDARD TESTING CENTER

FOR ELECTRIC FORKLIFT TRUCK OPERATING LEVEL 1

In readiness for tools, equipments and location, A.N.I. TTNS provides forklift operating training services and guides the appropriate ways to forklift drivers in order to work with forklift trucks safely and efficiently. Our Skill Standard Testing Examiners are the first people qualified from the Department of Skill Development in Central region of Thailand, excluding Bangkok Metropolitan region.

In 2017, our company was certified as Occupational Skill Standard for Forklift Driver Level 1 by the Skill Development Promotion Committee according to Skill Development Promotion Act B.E.2545 (A.D.2002). Also, we are qualified to run the Skill Standard Testing Center for Electric Forklift Truck Operating Level 1 by the Department of Skill Development, Ministry of Labor.
